

Comcast Corliss Bargaining Report 11 11/30/2022

We met with the Company the last 2 days, November 29 and 30, 2022. While our primary focus continued to be coming to a fair wage agreement there were other issues which needed resolved as well. After many sessions we are happy to announce we've reached a tentative agreement on a new contract. Changes include:

- Improved language on made-to-stay
- New Summer Overtime Plan (SOP)
- Individual salary adjustments
- Yearly General Wage Increases (GWIs)
- Improved wage progression for new hires
- Improved language on protections for bargaining unit work
- Improved Holiday language
- Improved PTO accruals
- Improved training language
- Changed PTO allowance
- \$500.00 ratification bonus

Stay tuned for information on a Membership Meeting where we will provide a much more detailed explanation of the results of bargaining and hold a ratification vote. The committee appreciates all of your support as we fought this battle, the reason we succeeded in achieving a fair agreement is the unity our group has been showing!

In Unity,
Union Bargaining Committee
