

CWA-AT&T Orange Mobility-Bargaining Report #25

June 17, 2022

As we continue bargaining, wages remain one of the last obstacles for a fair and equitable contract. We have been stuck on wages for a couple of weeks, but we are finally seeing the company moving in the right direction. Anyone paying attention to the news, or feeling the real-life pain of inflation, knows that we need a substantial raise. In spite of all the negative activity in the economy, AT&T and their executives continue to prosper. The company needs to share that prosperity with its workers and not keep it all for themselves. We need you to keep up the pressure and continue mobilization! We need to fight until the very end to get what you deserve! Stay Informed and Stay Mobilized!

WE Will Prevail—ONE DAY LONGER, ONE DAY STRONGER!!
