

Comcast AlleKiski Bargaining Report 1

4/26/2023

The Union Bargaining Committee met with the Company the last two days April 25 and 26, 2023 in Carnegie, PA. We shared a number of proposals, based on your survey responses and the Membership meeting, with the company. Among them were proposals to limit contract labor and protection of bargaining unit work. The company also passed proposals. It is clear that the company agenda is the same as always, to strip whatever they can from your CBA.

We are scheduled to resume bargaining May 24, 2023. We are currently developing additional proposals including economic proposals, but the process has been slowed because the company has failed to provide us with necessary answers to several of our information requests. Contact your Branch Rep or Steward to learn of upcoming Mobilizations and to get more details about progress at the bargaining table.

UNITED WE BARGAIN, DIVIDED WE BEG!

In Unity,
Union Bargaining Committee
